LOGO CONSTRUCTION

LOGO CLEARSPACE

It is important to keep corporate marks clear of any other graphic elements. To regulate this, an exclusion zone has been established around the corporate mark. This exclusion zone indicates the closest any other graphic element or message can be positioned in relation to the mark of the symbol itself and our company name – they have a fixed relationship that should never be changed in any way.

Whenever you use the logo, it should be surrounded with clear space to ensure its visibility and impact. No graphic elements of any kind should invade this zone.

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and composed it as a sample text. It has survived not only five centuries, but also the leap into electronic typesetting, remaining unchanged and still the standard dummy text of the printing and typesetting industry.
